Supercharge Coaching with Emotional Intelligence

21-24 Feb, 2017
Shanghai

Ideally coaching supports clients to create positive change – but change doesn't happen just from "knowing." Emotions are a key driver for professional and personal transformation. EQAC equips professionals with a powerful emotional intelligence assessment (the SEI) and Six Seconds Change MAP as a roadmap for structuring a transformational coaching process fuelled by EQ.

A complete toolset to measure and develop the key drivers of performance, the SEI assessments support professionals get better results on the "people-side." Unlike other psychometric tools which provide an abstract diagnosis, the SEI provides practical feedback and a process for action. Created by world leaders in emotional intelligence development, these tools are statistically rigorous, highly practical, and with a global view – which is why they're chosen by leading organizations including FedEx, HSBC, Emaar Hospitality, the US Navy, Pfizer, and Microsoft.

"One of our biggest challenges is how to get more employee engagement under challenging times with diminishing resources. SEI has been an effective tool for identifying emotional intelligence issues and improving discretionary effort including 'real world' action plans for improving emotional intelligence.

We greatly appreciate the support, learning, and continuing research by the SEI team."

- Bob Brooks, HR Advisor, FedEx
